

# Floor Prep

## CLEANER FOR CEMENT & GROUT RESIDUES

- \* Strong Acid with NO FUMES
- \* Water Based
- \* Environmentally Friendly

**Floor Prep** aggressively cleans off cement, lime, efflorescence and other materials that commonly stain tile surfaces. **Floor Prep** is suitable for use over coloured grout joints.

### SUITABLE RESIDUES

- Salpetre Efflorescence
- Lime Efflorescence
- Cement
- Cement based adhesives
- Slight Rust Stains

### COLOUR

- Clear

### SUITABLE SUBSTRATES

- Ceramic & Mosaic Tiles
- Concrete
- Plaster
- Sinks & Tubs

### INTERIOR/EXTERIOR

Walls & Floors

### PRECAUTIONS

**Floor Prep** is unsuitable for:

- cleaning moisture sensitive green marble;
- general marble or other calcareous stones;
- tiles with an acid sensitive glaze.

### SPECIAL CARE REQUIRED

Test a small area prior to cleaning the whole tile installation. Residues must be rinsed off surrounding surfaces & metal fittings with water. Spills on fabrics must be rinsed off immediately with water to avoid staining and permanent damage. Always wear rubber gloves and eye protection when working with **Floor Prep**.

### FLOOR PREPARATION

Protect all surfaces that could be splashed with **Floor Prep**. Highly absorbent substrates such as porous ceramic tiles, concrete or plaster must be wet with water before Floor Prep can be applied.

### COVERAGE

Coverage is approximate only and will vary according to the degree of cement residues present on the floor. As a guide, 1 litre of **Floor Prep** will clean approximately 10 square metres of floor.

### APPLICATION & TOOLS

Apply **Floor Prep** with a mop or brush, working within small areas at a time. Allow **Floor Prep** to react for about 5 minutes. Scrub the floor with a wet brush or an abrasive sponge, such as a medium-grain SCOTCHBRITE, to remove any crusts or stains that still remain and continue scrubbing until all visible stains have disappeared. Repeat the operation for very persistent crusts or stains. Remove **Floor Prep** with a sponge, rubber rake or with an industrial vacuum cleaner and then rinse the floor thoroughly and repeatedly with water. Finish the floor by drying it with a cloth.

### CLEAN UP

Wet **Floor Prep** can be rinsed off any surface or material with water.

### SHELF LIFE

Twelve months if stored in the original factory sealed packaging.

### PACKAGING

**Floor Prep** is available in 20L, 10L, 5L & 1L containers.

### SPECIFICATION CLAUSE

The wall & floor cleaner shall be Morgan **Floor Prep** - a high performance cement residue cleaner.

## **MORGAN QUALITY POLICY STATEMENT**

**Floor Prep** is manufactured and distributed to a quality system based on ISO 9001:2000.
